

A community of donors creating lasting change

Haven Toronto is a day centre that supports elder, homeless and marginally housed men 50+ in downtown Toronto, serving roughly 1,000 clients at any given time: 80% homeless, and 100% facing food insecurity. Nearly half of our operational funding depends on generous foundations, corporations and individuals. **Haven Changemakers** is a community of individual supporters who go above and beyond to answer that need — united behind our vision to create a safe and just community in which elder homeless men have the opportunity to live a quality, dignified life.
